

The innovative 24 V LED plug-in system for fascinating light in the garden, around the outside of your home and on the patio

The time-saving Plug & Shine plug-in system creates customised light scenarios – in just a few simple steps and with cable routing over or underground.

- All luminaires are dimmable, corrosion-resistant and waterproof (IP65/67).
- The luminaires are easily controlled via remote control or Zigbee controller.
- 24 V plug-in system for foolproof connection
- Can be extended to up to 50 metres
- Powerful IP67 transformers and bite-resistant, UV-resistant IP68 cables

Follow just 3 easy steps to create your custom lighting solution:

1. Place the luminaires where you want them
2. Assemble the cable system: from the power outlet to the furthest point
3. Choose a transformer to match the total output

DONE!

House 230 V

230 V LED luminaires for illumination around the outside of your home

The reliable outdoor luminaires offer an excellent value for money for private and commercial uses.

The luminaires either come equipped with state-of-the-art LED technology or you can choose any lamp you like.

ULine belt system

Your one-of-a-kind light in any size space

Discover ULine – our fascinating 48 V lighting system that brings life to every dimension of the space in your home!

Would you like to transform walls, ceilings and floors into a breathtaking lighting experience? This system uses delicate belts, which can be freely tensioned in the room and offer limitless flexibility.

URail: Your ideas, your light, your system

The 1-phase rail system for flexible lighting design in every living space

With URail, you have full flexibility in lighting design and can bring light wherever you need it: Modern pendant luminaires above the dining table, flexible spots for targeted illumination of shelves, pictures and workspaces or panels for uniform room illumination with warm white or neutral white light.

Whether in stylish chrome matt, timeless signal white or as a statement in black, URail offers you individual lighting design with a length of up to 40 meters and well over 100 spotlights, pendants and smart accessories. The URail system connects directly to the power outlet – no transformer needed!

Holistic bathroom lighting concepts

Paulmann offers a complete range for bathrooms with high-quality products at attractive prices.

At the heart of the range are timeless, modern and elegant design series for domestic bathrooms, as well as for bathroom applications in the commercial sector.

All items have at least IP44 protection, making them ideal for use in the bathroom.

Paulmann – a family business creating lighting ideas for 45 years

Paulmann Licht GmbH was founded in 1978 and is a leading brand manufacturer in the lighting industry. True to our motto „Realise your lighting ideas“, we offer our customers high-quality light to make them feel good, and with high energy efficiency – both indoors and outdoors.

We are a German family business based in Springe, Lower Saxony, employing 450 people worldwide and distributing in over 40 countries in Europe. As a member of the UN Global Compact network, we attach great importance to sustainable business practices, environmental protection and social commitment. We are pursuing a programme to reduce the carbon footprint of our sites and products.

Our complete range features over 2,500 luminaires and lamps.

Our in-house designers, constructors and electronics engineers bring together technology, design and user benefits during product development and ensure the high-quality for which Paulmann is rightly famous.

Each of our products is accompanied by Paulmann product experts from the initial idea through to development, manufacture and final delivery. All our items and components are regularly checked by our own in-house Quality Assurance, as well as by external certified test laboratories. That's why we give a 5-year warranty on our Paulmann luminaires and transformers.
